AVVERTENZE GENERALI PER LA CONSULTAZIONE DEL CATALOGO RICAMBI

Tutti i pezzi suscettibili di essere richiesti come parti di ricambio sono individuabili dal numero d'ordinazione, dalla denominazione e dalla quantità riportati nel testo che accompagnano le illustrazioni.

Considerato che le varianti volta a volta introdotte nella fabbricazione portano a cambiare tali numeri, denominazioni e quantità nel tempo, è necessario che i MAGAZZINI PARTI DI RICAMBIO seguano attentamente le varianti comunicate periodicamente mediante i fogli di aggiornamento.

Tutti i pezzi indicati nel presente catalogo sono disponibili presso i magazzini del nostro Servizio Centrale Ricambi. Per i pezzi di fornitura esterna è riportata, a fine catalogo, un'apposita tabella di comparazione comprendente: il numero di ordinazione Alfa Romeo, il nome del fornitore ed il numero categorico, corrispondente.

Tutte le ordinazioni devono essere effettuate indicando oltre al numero del pezzo rilevato nel Catalogo anche il numero di telaio e di motore del veicolo sul quale dovranno essere impiegati i pezzi richiesti. E' opportuno che le ordinazioni siano completate dalla esatta denominazione del pezzo quale riportato negli elenchi di testo.

TAVOLE

Illustrano le parti di ricambio elencate nel testo. Ogni TAVOLA riporta in alto a destra il numero di TAVOLA codificato, la denominazione della TAVOLA (in alto a sinistra) e l'indicazione del modello (in basso a destra). Tutte le parti di ricambio illustrate nelle TAVOLE sono contraddistinte dal numero di ordinazione con a fianco tutte le indicazioni (numero della modifica, riferimenti, ecc.) sufficienti per poter individuare il ricambio direttamente sulla tavola.

UTILISATION DU CATALOGUE DE PIECES DE RECHANGE

Toutes les pièces vendables en rechange sont contenues dans le présent document où elles sont réparties par planche précisant leur numéro de commande, leur désignation et la quantié entrant dans chaque organe ou élément.

Les modifications pouvant survenir en fabrication entrainent, chaque fois, la modification de ces numéros, désignation et quantité, aussi nous recommandons à tous les MAGASINS DE PIECES DE RECHANGE de suivre très attentivement les mises à jour que nous diffusons au fur et à mesure de ces modifications.

Toutes les pièces indiquées dans le présent Catalogue sont en vente à notre Magasin Central Pièces de Rechange. Pour les pièces de fourniture extérieure un répertoire, à la fin du Catalogue, indique les numéros de commande Alfa Romeo et les références fournisseurs correspondantes.

Sur toutes les commandes mentionner, outre le numéro de pièce relevé dans le Catalogue, le numéro de châssis et de moteur du véhicule auquel sont destinées les pièces demandées. Il est souhaitable d'indiquer également l'exacte désignation, donnée dans le texte, de la pièce intéressée.

PLANCHES

Les planches se composent d'une illustration et d'un texte. Chaque planche est identifiée par un numéro codifié (en haut, à droite), sa désignation technologique (en haut, à gauche) et l'indication du modèle de voiture (en bas, à droite).

A côté de l'illustration de chaque pièce figure le numéro de commande de celle-ci ainsi que des renseignements supplémentaires (consignes, points de départ, etc.) permettant un repérage rapide de la pièce désirée.

Au dos de la planche illustrée figure le texte qui répète, pour chaque pièce, le numéro de commande, la quantité et sa désignation en cinq langues.

HOW TO CONSULT SPARE PARTS CATALOG

All the component parts liable to be ordered as spares are identified in the breakdown list which accompanies view tables.

Since the modifications now and then introduced in series production lead to changes in the number, description and quantity, it is essential for THE SPARE PARTS STORES to strictly follow the changes which will be regularly notified with the amendment sheets.

All the items entered in this catalog are available at the head store of our Spare Parts Department. For parts manufactured outside the factory an A.R. part. no. to supplier's name & part no. cross-reference list is given on last pages of the catalog.

All the orders for parts should state the catalog number and, in addition, the chassis and engine numbers of the concerned cars. When ordering, it is advisable to describe the part with the same description as given in the breakdown lists.

TABLES

They illustrate spare parts listed in each breakdown table. The codified TABLE number is quoted on the top right side, TABLE denomination on the top left side and the model indication on the bottom right side. All spare parts illustrated in TABLES are identified by Numbers. All necessary indications (modification number, references, etc) to identify spare parts on breakdown tables are specified as well.

ALLGEMEINE HINWEISE ZUR BENUTZUNG DES ERSATZTEILE-KATALOGS

Sämtliche Ersatzteile sind durch die Bestellnummer, die Bezeichnung wie auch durch die Anzahl der in jedem Aggregat befindlichen Einzelteile und schliesslich durch die Katalogtafeln und Abbildungen als solche erkenntlich.

Unter Rücksichtnahme auf die von Zeit zu Zeit in der Fabrikation auftretenden Neuerungen und somit auch Änderungen der Katalognummer, Bezeichnungen und Mengenangaben ist es notwendig, dass die ERSATZ-TEILLAGER mit grösster Aufmerksamkeit diesen Änderungen Folge leisten, über welche sie durch Egänzungen informiert werden.

Alle in vorliegendem Katalog verzeichneten Ersatzteile sind bei unserem Zentralersatzteillager verfügbar. Für Ersatzteile von Zulieferfirmen ist im Schlussteil dieses Katalogs eine besondere Vergleichstabelle vorgesehen, der folgende Angaben zu entnehmen sind: Alfa Romeo - Bestell- nummer, Name des Lieferanten sowie zutreffende Ersatzteilnummer.

Bei jeder Bestellung muss ausser der im Katalog festgestellten Bestellnummer auch die Fahrgestell-und Motornummer der Fahrzeugs angeführt werden für welches die Teile bestimmt sind. Es ist ausserdem notwendig, dass die Bestellungen mit den im Katalog angeführten Bezeichnungen der Teile wörtlich identisch sind.

BILDTAFELN

In jeder Tafel sind die entsprechenden Ersatzteile dargestellt. Jede Bildtafel trägt rechts oben eine Code-Nummer, die Benennung der TAFEL (links oben) und die Modellbezeichnung (rechts unten). Alle in der Bildtafel dargestellten Ersatzteile sind mit der zutreffenden Bestell-Nummer sowie danebenstehenden Hinweisen (Änderungs-Nummer, Bezug, usw.) versehen, wodurch das Teil in der Bildtafel sofort festgestellt werden kann.

ADVERTENCIAS GENERALES PARA CONSULTAR EL CATALOGO DE REPUESTOS

Todas las piezas que puedan ser pedidas como piezas de recambio, se pueden individuar por el número de pedido, por la denominación y la cantidad presente en cada grupo, en las tablas de texto que acompañan las illustraciones.

Considerando que las variantes cada vez introducidas en la fabricación, llevan a cambiar tales números, denominaciones y cantidad en el tiempo, es necesario que los Almacenes de Partes de Recambio sigan atentamente las variaciones comunicadas mediante los opúsculos de puesta al dia.

Todas las piezas contenidas en el presente catálogo son disponibles en los almacenes de nuestro Servicio Repuestos Central. Para las piezas provenientes de Casas abastecedoras externas, ha sido añadida, al final del catálogo, una tabla de comparación expresamente perfijada, que comprende: el número de pedido Alfa Romeo, el nombre del abastecedor y el número categórico correspondiente.

Todos los pedidos deben ser efectuados indicando además del número de la pieza controlada en el Catálogo, el número del bastidor y del motor del vehículo sobre el cual tendrán que ser empleadas las piezas requeridas. Es conveniente que los pedidos sean completados con el nombre exacto de la pieza señalada en las tablas del texto.

LAMINAS

Ilustran las piezas de repuesto contenidas en cada una de ellas. Cada LAMINA lleva en alto, a la derecha, el número de LAMINA codificado, la denominación de la LAMINA (en alto, a la izquierda) y la indicación del modelo (abajo, a la derecha). Todas las piezas de repuesto ilustradas en las LAMINAS se pueden distinguer por el número de pedido con, a los lados, todas las demás indicaciones (Numero de la modificación, referencias, etc.) suficientes para poder localizar la pieza de repuesto directamente en la LAMINA.
